## 2. Trainer

### Dr. Marleen Verbeeck

Dr. Marleen Verbeeck is a clinical research professional since 1995. After her academic career in scientific research she gained solid grounding in clinical research, first as a clinical research associate, later as a medical writer and trainer. Since 2004 she works at the European Centre for Clinical Research Training (ECCRT) and trains staff from multinationals and small businesses of the pharmaceutical and medical device industry, of universities, as well as non-profit research organisations across Europe, the United States of America and the Middle East. She is author of scientific papers, clinical trial study protocols and final study reports (Phase I to IV). Her experience in medical areas include gastroenterology, central nervous system, rheumatology, oncology and immunotherapy.

Marleen enjoys developing, lecturing, evaluating and testing comprehension of courses and expands her vast educational classroom expertise by exploring new learning techniques.

As a trainer her expertise is “trial legislation and clinical operations”, such as:

- Good Clinical Practice (Refresher)
- Legal Requirements in Clinical Research in Pharmaceutical and Medical Devices industry in Belgium/ in Europe/ and in the USA
- Preparing for Audits/ Inspections
- Standard Operating Procedures and Operational Challenges
- Clinical Research Trainings for Administrators/Assistants
- Clinical Research Trainings for Clinical Trial Monitors (juniors and seniors)
- Clinical Research Trainings for Investigational Site Team
- Clinical Research Trainings for Investigators

She is providing classroom and virtual teaching of academics and company staff, located globally, but also tailor-made sessions adapted to the specific needs of client and/or company.
