Embracing a Transformative Future: ECCRT's Learning and Development Offerings for 2024

Dear esteemed readers,

We are thrilled to present to you our all-new Course Prospectus for 2024.
At ECCRT, we have always been committed to providing top-notch training and development solutions to nurture personal growth and enhance professional development.

What's Inside?

1. **Public Courses**: Our wide range of courses open to the public awaits you. Whether you're looking to enhance your skills, gain new knowledge, or simply stay ahead of the curve, our 2024 course schedule is here to guide you. We've meticulously curated an impressive lineup of training programmes to cater to your diverse needs.
2. **Tailored Courses**: Your unique requirements are at the core of our training solutions. At ECCRT, we understand that one size does not fit all. Our tailored courses are designed to meet your specific needs, ensuring that you get the most out of your learning experience.
3. **More about ECCRT**: Dive deeper into our organisation, our values, and our commitment to nurturing a culture of continuous development.

However, that's not all. We are thrilled to announce that ECCRT is evolving from a training organisation to a development organisation, redefining the way we approach learning and growth.

What's New?

1. **Behavioral Change Acceleration**: We understand that real growth goes beyond the classroom. That's why we've introduced our unique methodology to stimulate self-directed learning, a key skill in today's ever-changing environment. Turn to page 23 to explore how we're pioneering lasting behavioral change.
2. **Mentorship for On-The-Job Application**: Learning is truly valuable when it's applied effectively. To ensure that your learnings translate into clinical development excellence, we are thrilled to offer mentorship programs. Dive into the details on page 24 and discover how we're committed to your success, not just in the classroom, but in your professional life.

We are more than just educators; we are your partners in growth & development. Here's to a year of transformation, growth, and endless possibilities. Together, let's make 2024 a year of unparalleled success.

Prof. Dr. Benedikt Van Nieuwenhove
Managing Director

ECCRT Mission

We are a professional Clinical Research Training Organisation for the **pharma, biotech & medical device industries** as well as for CROs, investigational and academic groups.

Our mission is to facilitate Clinical Research professionals to **excel in their job** for the benefit of patients.

To achieve this, we have **60+ seasoned experts on our team** covering a wealth of know-how which they enthusiastically share with our course participants in the most interactive, engaging and innovative way.

WHY ECCRT?

EFFECTIVE LEARNING

Our goal is to provide a **360 degree approach** combining training, coaching, and consulting, benefiting individuals and organisations!

EXPERTISE

We want you to be trained by **real and experienced trainers** who are keen to share and personalise their trainings according to your needs!

INNOVATION

With our Virtual Campus, you can **learn, share and exchange knowledge** as you have never experienced before!

Recognition

ECCRT has achieved the prestigious Qfor certification. It is a testament to our dedication to providing exceptional services and the highest standards of quality in the industry.

ECCRT has been approved by TransCelerate's GCP Mutual Recognition Program.

For clients from the Flemish region of Belgium, we proudly accept KMO subsidies. This means you can use KMO subsidies to support your employees' training and development, making it a cost-effective way to enhance your team's skills.

If you are located in the Walloon region of Belgium, we support Cheque Formation. This subsidy allows you to take advantage of our courses with the convenience of financial assistance.

Our solutions

Our ultimate goal is to train talent by providing implementable knowledge in the day-to-day activities of our learners.

1 Public Courses

Individual & Group Solutions

We offer a range of face-to-face or live webinar training sessions scheduled throughout the year as well as courses in eLearning and microLearning formats.

Choose the training according to your needs and your preferred location and format.

2 Tailored Solutions

Business Solutions

Our Tailored Solutions are personalised training services that are provided according to your specific needs.

These solutions cover a range of areas, such as tailored courses, coaching, consulting and many other solutions, with the aim of meeting all of your training needs.

Courses categories

Hard skills

TECHNICAL TRAININGS

- Clinical Operations
- Regulatory Courses
- Quality Assurance
- Clinical Research

Soft skills

COMMUNICATION

Training sessions for anyone trying to improve their communication skills.

MANAGEMENT

Training sessions for anyone managing a clinical trial and a team.

LEADERSHIP

Training sessions for anyone aspiring to become a leader.

Public courses

For individuals and groups

Our scheduled Training programmes cover topics related to clinical research, quality assurance, regulatory affairs, as well as soft skills to make you excel in your job.

All these programmes are globally recognised and offer participants a unique learning journey through our Virtual Campus, with related course materials and official certificate.

Our courses are accessed as in classroom, through live webinar and via eLearning and microLearning sessions. Some trainings are sometimes blended, i.e. carried out combining different formats.

Check our course schedule to check our training sessions planned throughout the year.

Course formats

Classroom

Face-to-face sessions taking place in a specific location

Webinar

Live interactive online sessions

microLearning

Online short recorded training topics that are available anytime

Blended

A combination of recorded and live sessions

eLearning

Online recorded trainings available in our Virtual Campus

Discount eligibility

NOTE: Discounts are not cumulative

30%

on all our courses for hospital and university staff members, non-profit organisations, students and academia.

15%

of the total course fee in each STAR Programme (package of trainings)

5%

Early bird
(4 months before the starting date)

PRIVILEGE CARD

Free of charge, cumulates discount until 5 purchases by the company

MicroLearning

microLearning is a term used for small online learning units and short-term educational activities.

microLearning is a brief, to-the-point and more engaging training format than our regular eLearning courses, covering practical topics such as CAPA, Investigator Site File, drug accountability log and many others, that will help you improve your productivity, avoid double work and bad time management.

At any time and anywhere, you can quickly access our short online educational videos that will provide you with the knowledge to accomplish your daily tasks at work.

microLearning categories :

COMMUNICATION

CLINICAL OPERATIONS

DATA

ETHICS

GCP

HOT TOPICS

LEADERSHIP

REGULATORY

Some of our microLearnings:

- Serious Breaches in Clinical Trials
- How to write an effective CAPA?
- eTMF Reflections
- Linking Essential Docs with GCP
- Difference between ISO 14155 and GCP
- Informed Consent the Right Way
- What to look for when not doing 100% SDV
- How To Enhance Oversight of the TMF?
- What to verify in an Investigator Site File?
- Optimising Site Selection
- Difference between Protocol Violation and Deviation
- Creating Worksheets for Clinical Source Data
- Using eSource Data in clinical investigations

The full list and more information ***HERE.***

Star Programmes

STAR Programmes are a mix of both technical and soft skills training sessions, assuring that you will get an all-round curriculum, providing you with all competencies required for a specific function or role.

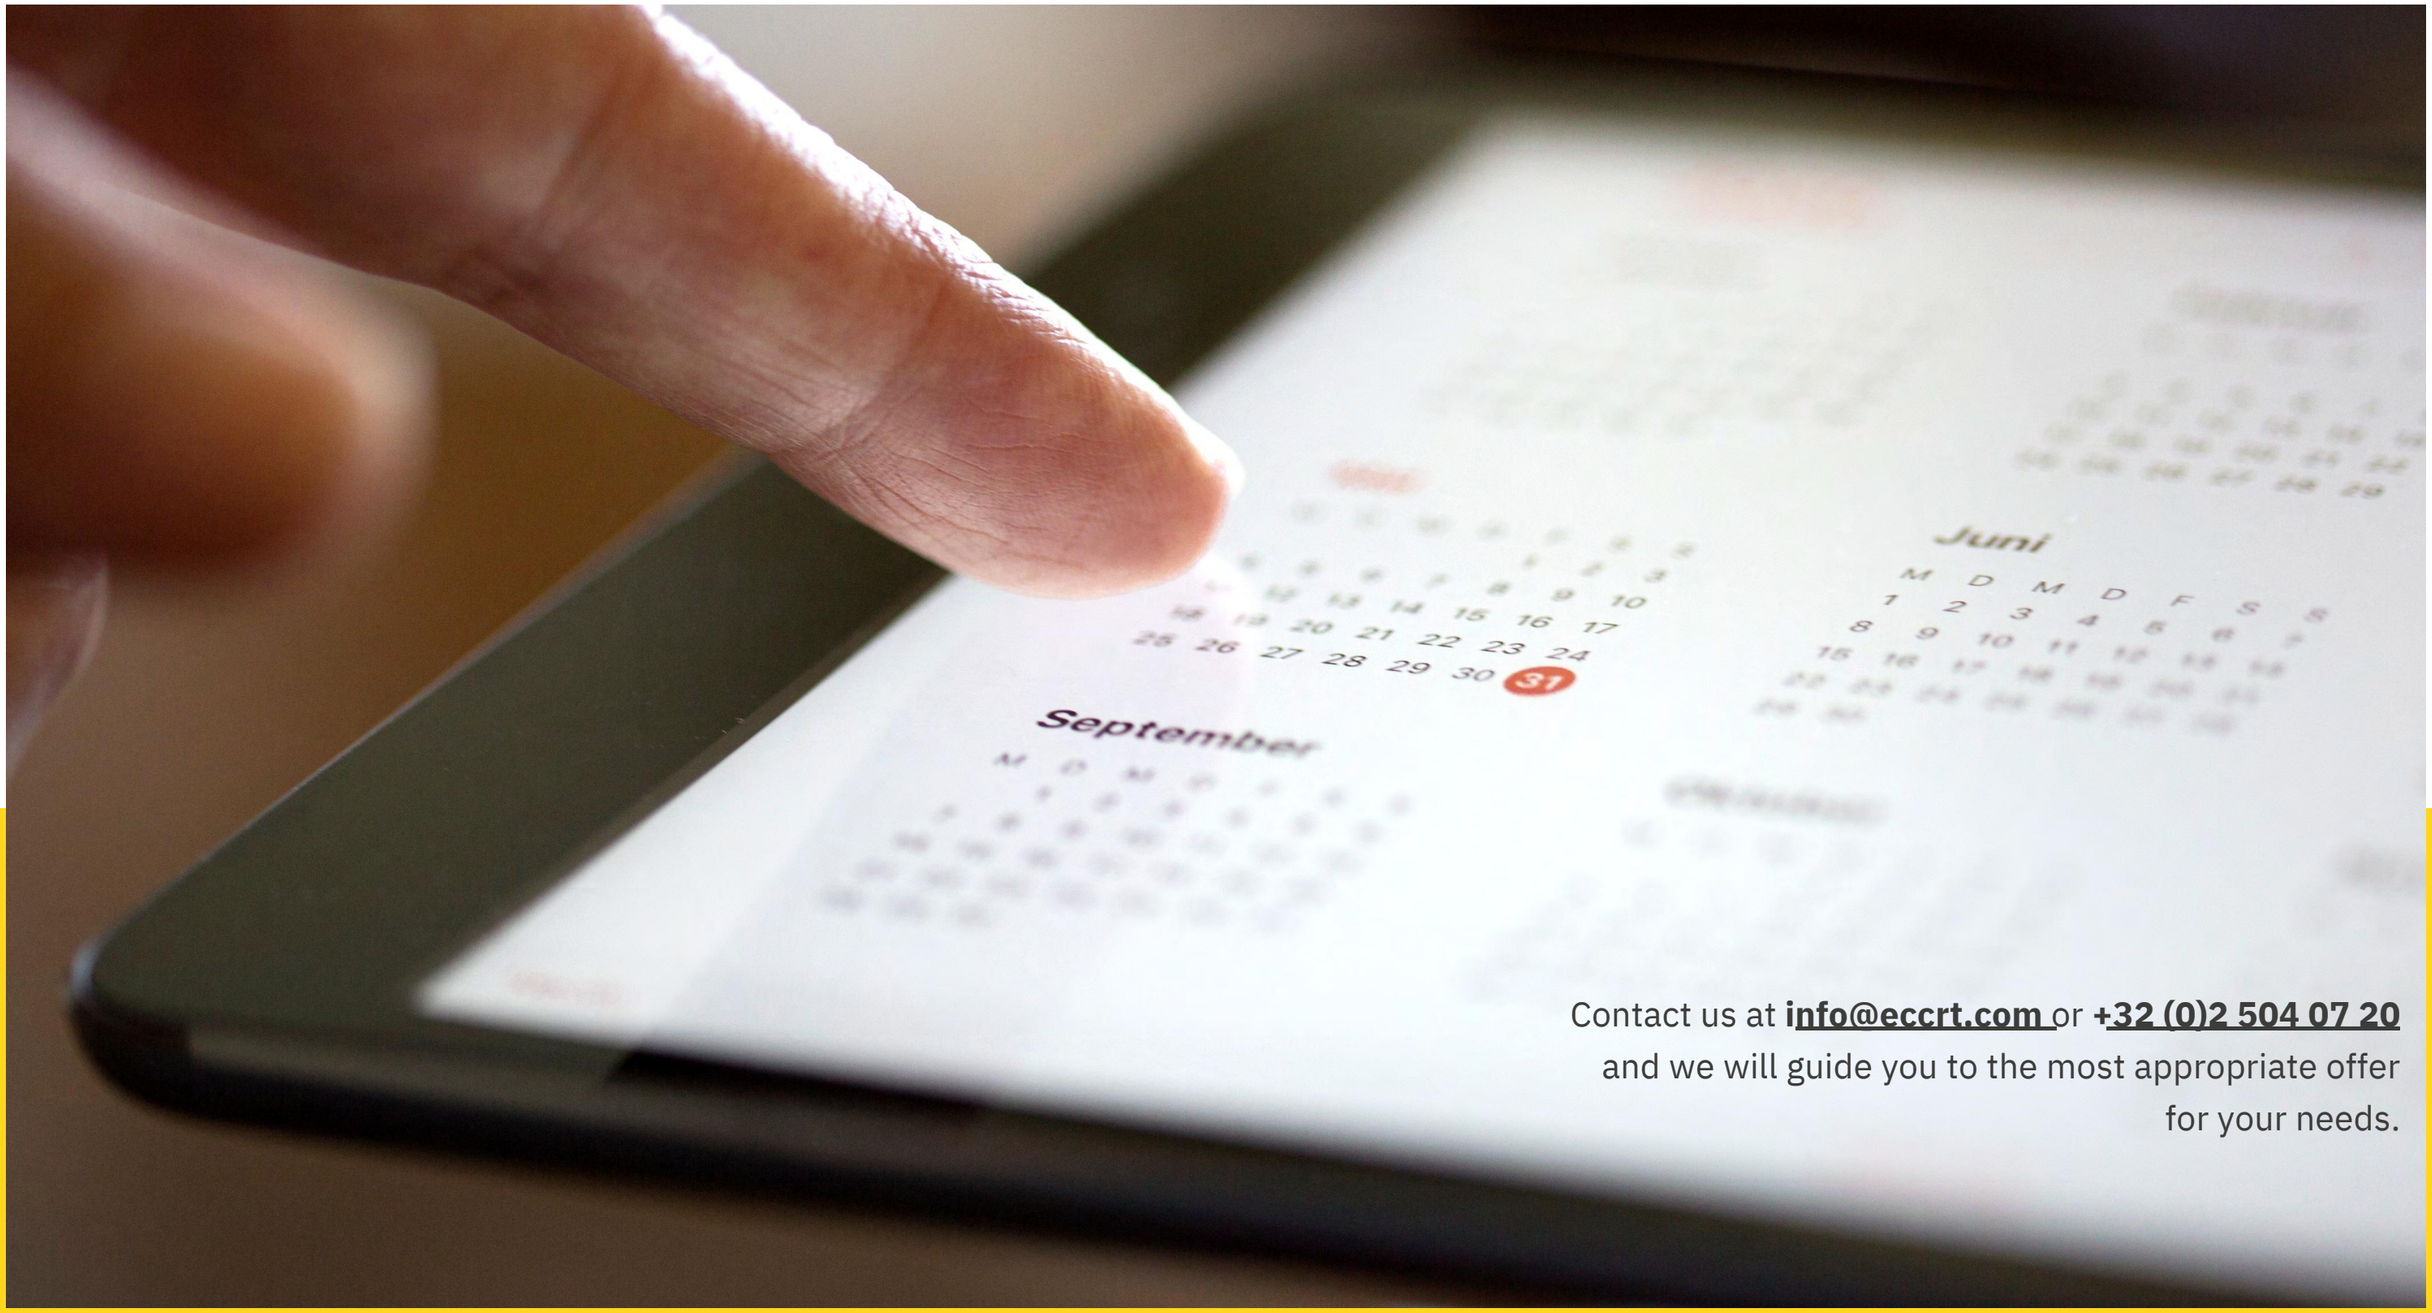
There are two more advantages to the STAR Programmes:

1. We offer you the flexibility to follow the individual courses: when you register for a STAR Programme, you can freely choose the dates of the courses throughout the year, to allow minimal disturbance of your daily activities and to optimise your travel schedules.

2. Secondly, the costs of the STAR Programme is 15% lower than the total price of the individual course's fees.

Courses Schedule

Many training topics are available upon request, even if these aren't scheduled. You can either request to join our waiting list for the next session or ask for a tailored project for your organisation.



Contact us at **info@eccrt.com** or **+32 (0)2 504 07 20** and we will guide you to the most appropriate offer for your needs.

Tailored Solutions

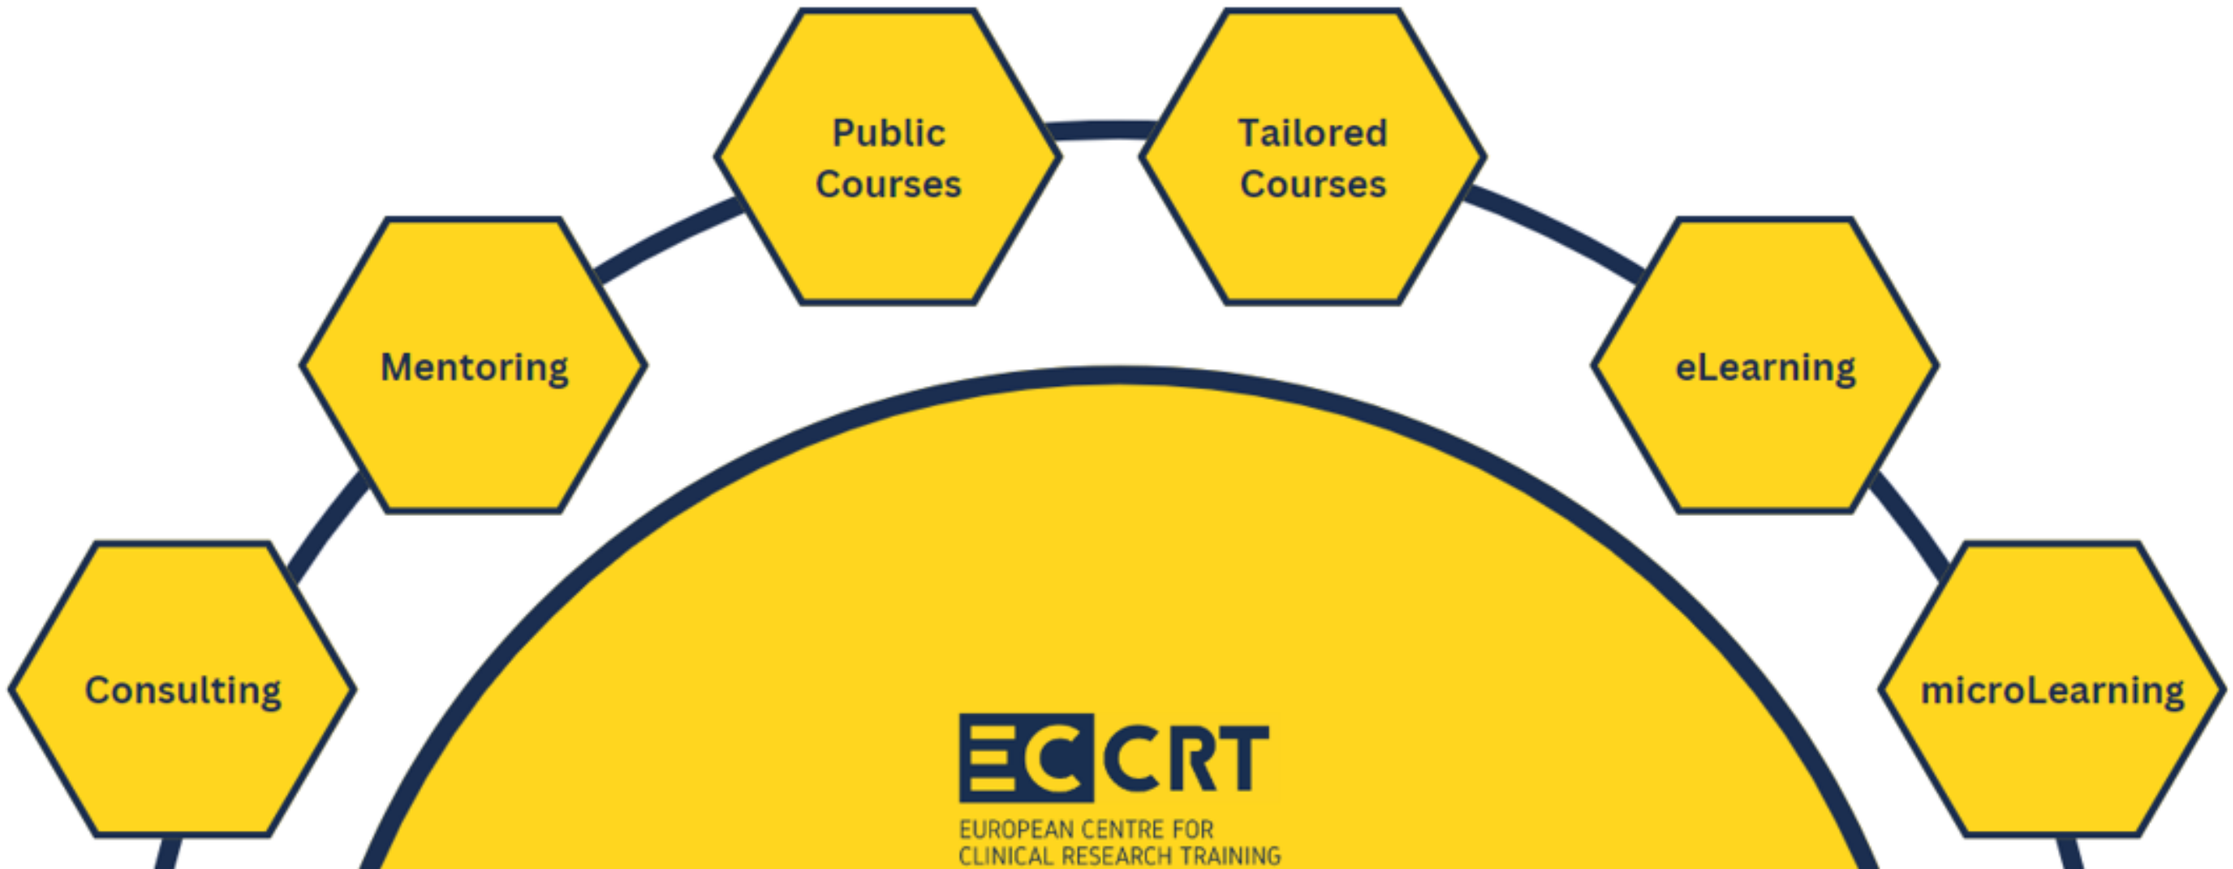
Organisations

Tailored Solutions

Our 360-degree approach is built on a foundation of diverse services tailored to meet the specific needs of your teams and company.

By utilizing all these services in harmony, ECCRT ensures that your teams are equipped with the knowledge, skills, and resources they need to excel in clinical research.
We believe that excellence in this field is not achieved through a single approach but through a 360-degree perspective that addresses every facet of the journey.

Whether you're seeking to enhance the capabilities of your team, streamline your processes, or adapt to the ever-evolving landscape of clinical research, our 360-degree approach is here to make miracles happen for your teams and your company.



Tailored Courses

Request any training about clinical research related topic for your organisation.
You can decide:

- **Topic**

(what points to focus on that subject)

- **Training format**

(face-to-face or live webinar and via eLearning sessions. Some trainings are sometimes blended, i.e. carried out combining different formats)

- **Location of the training**

- **Number of participants**

Process

1.Request

E-mail us or book a meeting HERE.

2.Assessment Call

Let's find the best solution for you

3.Agreement

We create a training plan

4.Training

We deliver the training

5.Feedback

We'd love to hear your assessment of the training!

Competency Framework

Competency Framework is a standard mapping of competencies to roles, used to help organisation assess and manage individual and collective work performance.

Based on the developments of the Joint Task Force for Clinical Trial Competency and on our vast expertise in Clinical Research, ECCRT has taken the Competency Framework concept a step further to fit your specific needs.

The Competency domain includes:

- **Scientific Concept and Research Design**
- **Ethical Participant Safety Consideration**
- **Clinical Studies Operations (GCPs or ISO 14155)**
- **Study and Site Management**
- **Leadership and Professionalism**

Team To Go

The Team To Go programme focuses on your team and on the communication between each stakeholder in order to increase efficiency in the day-to-day activities of a team.

Team To Go (TTG) is not only about training a team on specific skills, but it is also about bonding the team for success. Not designed to be a one-time effort, it will provide guidance and coaching to your team throughout the project in order to have a successful outcome.

The main 3 components are:

Core team meeting

- Define the client team vision and means
- Define goals and objective
- Define KPI

Teaming

- Team building and workshops to enhance team dynamics & performance

Guiding & Coaching

- Ongoing training via an online forum and Q&A sessions
- Coaching individuals, including performance management and competency assessment

Link: https://eccrt.com/team-to-go

Course Prospectus 2024 I Tailored Solutions

Coaching

At ECCRT, we aim at guiding you and your team to succeed and to brilliantly face new challenges. Therefore, we have put different coaching solutions in place that will be beneficial for you: career, personal and team coaching. Together with our expert coaches you will achieve your goals.

You can choose between:

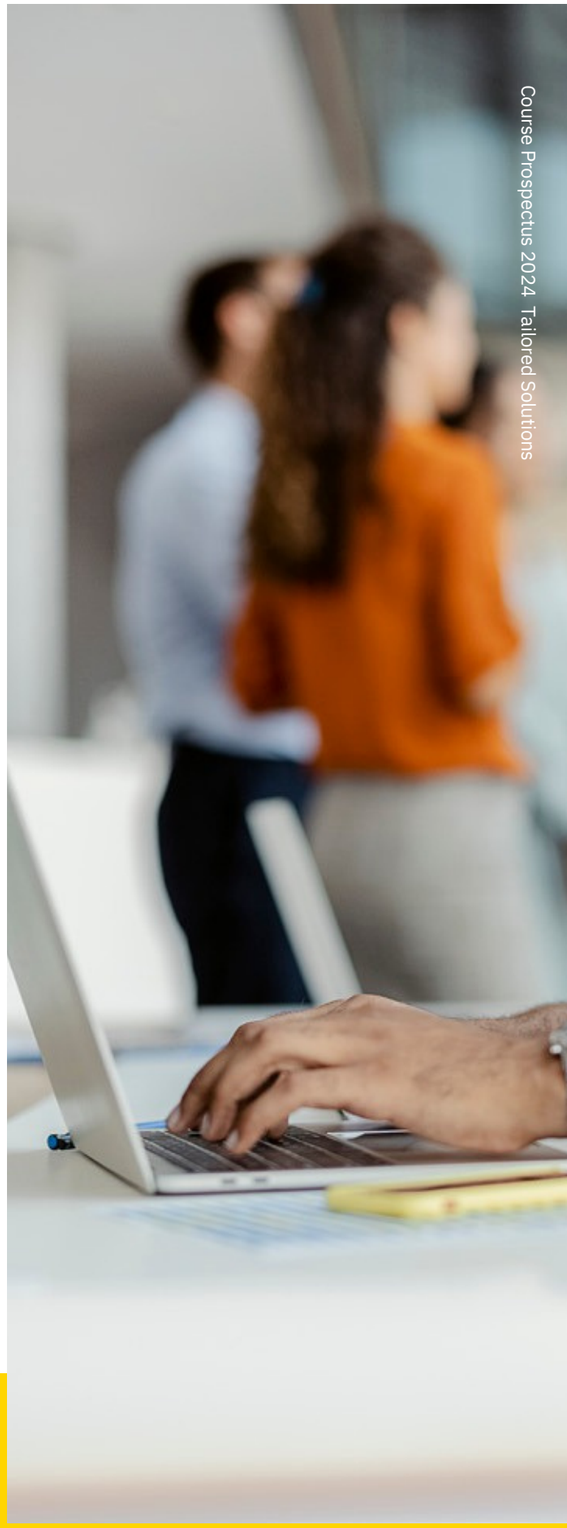
- Coaching on how to start your career in Clinical Research
- Coaching on how to advance in your career, in Clinical Research

Mentoring

ECCRT is your ideal partner to provide mentoring that empower individuals to thrive in the field of clinical research.

Our mentoring initiatives are designed to bridge the gap between theoretical knowledge and practical application in the complex world of clinical research. They pair seasoned industry experts with eager learners, creating a dynamic and supportive learning environment.

This hands-on approach ensures mentees develop the skills and confidence needed to excel in their jobs.



[1] Link: https://eccrt.com/course_display/career-launch-coaching/
[2] Link: https://eccrt.com/course_display/clinical-career-coaching/

Behavioural Change

Did you find difficulties in following-up with any training? Do you struggle with changing the performance and activities of your staff?

ECCRT is providing training and development programmes that combine conventional training tools and approaches with innovative interventions rooted in evidence from behavioural sciences and tailored to the clients circumstances and requirements.

What does it imply?

BEHAVIOURAL DIMENSION

Behavioural dimension to Learning and Development, through galvanising the entrepreneurial potential of employees

EMPIRIC RESULTS

Creation and monitoring of data-driven and evidence-informed approach based on the principles of design, behavioural and educational sciences principles

INNOVATIVE LEARNING

Areas such as stimulating/revitalising innovation, ensuring compliance, strengthening entrepreneurial and intrapreneurial culture, designing robust Learning and Development interventions

Clinical Development Excellence

Journey to Excellence

We commit to lower the risk of failing your clinical development because, as clinical research experts, we help you tackle the challenges you face such as delayed timelines, lack of quality, high costs etc.

Our experienced mentors accompany you throughout the clinical development process and assure the streamlined involvement and development of your teams.

Is your team lacking engagement or facing inefficiencies? Have you ever noticed insufficient conformity or quality? Are you often confronted with uncontrolled financial losses due to the risks faced during clinical development?

Our mentors will accompany your teams throughout the journey of the clinical research process with a 360° development approach.

More than just expertise, it is all about mentoring

TECHNICAL EXPERTISE

Thanks to our strong network of experts, we can clearly identify the gaps and propose high-quality training, to build the foundation of the required knowledge.

ON-THE-JOB MENTORING

Our experienced mentors will accompany your staff by providing “learning-on-the-job” tasks in order to consolidate the previously acquired concepts and deepen their clinical development knowledge;

COMPETENCIES DEVELOPMENT

Ultimately, your staff will develop their competencies, become more effective and increase the value of your organisation.

Consulting

ECCRT is your ideal partner to provide mentoring that empower individuals to thrive in the field of clinical research.

Our mentoring initiatives are designed to bridge the gap between theoretical knowledge and practical application in the complex world of clinical research. They pair seasoned industry experts with eager learners, creating a dynamic and supportive learning environment.

This hands-on approach ensures mentees develop the skills and confidence needed to excel in their careers.

Our approach is rooted in our own Competency Framework, which defines the essential domains and cognitive skills needed for conducting high-quality, ethical, and safe clinical trials.

Our ultimate goal is to empower teams to apply the knowledge gained practically. With our expert consultants, trainers, and coaches, who are chosen for their professional expertise, we always encourage interactive learning within the group.

What can we do for you?

Let’s say you are recruiting new staff and you need to harmonize and bond the current team with new workers, here is what we can do for you:

- Make an inventory of the current clinical operations group
- Provide on-boarding for the new team members
- Bond the team for success
- Create an inventory of the competencies needed and available
- Advise on training in order to assure all required competencies are available

ARE YOU INTERESTED IN BECOMING A TRAINER?

Join us

ECCRT has a broad network of trainers, coaches and subject matter experts, always providing you with the best and most up-to-date insights and hands-on learning. To keep providing valuable content to students, we are constantly looking for new trainers to share their expertise.

Contact us at **info@eccrt.com** or **+32 (0)2 504 07 20** and we'll work together on creating a great learning experience.

Testimonials

This week has been intense and very rich in learnings. The richness of this training comes by large from the speakers/teachers who bring their real-world experiences of the field and their vision of the regulatory history and future changes in Europe...
-Juliette Moyersoen (Regulatory Affairs STAR Programme)

It was very helpful to get an overview on all aspects to be considered in regard of pre-clinical to pre-clinical phase, especially the regulations referred to. So it's easier to read through the one or the other part later on when required.
-Michaela Schaden (Bridging Preclinical and Clinical Development)

Thanks to the Jr Clinical Researcher STAR Programme I understood better who can become a CRA and where to go. Through this knowledge and the interaction I had with the trainer, I know how to start and build my career in clinical research.
-Braulio Lima (Junior Clinical Researcher STAR Programme)

'Budgeting Clinical Studies' is one of the best courses I had at ECCRT.
A well designed interactive course, with practical orientation.
The guidelines given by Dr. Baeyens are very useful and enhance our knowledge in budget management.
-Elizabeth Boghossian (Budgeting Clinical Studies)

I decided to take the ECCRT career coaching. This helped me get a better overview of the roles and functions in the area of clinical development.
Together with my coach – Virginie Hamtiaux – we identified what my own strengths are and how to link them to a possible career in the pharma industry. **- Kristien Van Belle** (Career Coaching)

Insightful lectures, friendly environment and interactive learning experience. I was very welcomed by the ECCRT team who provided a pleasant and well-located place to do the training. Lectures were given by highly experienced professionals who gave a clear understanding of the drug life cycle and the required regulation... **- Joana Reis** (Regulatory Affairs STAR Programme)

This course opened my mind and gave me the opportunities to know different jobs related to clinical research especially regarding my own case as medical doctor i have discovered different positions

-Deppinair Mundabi Nzasi (Orienting your career in Clinical Research)

The deep expertise of the presenters, while still being accessible, speaking in a comprehensive matter. No answer was made up. Great answers, exactly on the questions. The whole program «tells a story». Not just a bunch of slides put side by side. The best training session I had in a long, long time.
-Federico Melo Ferrer (Introduction to Oncology for Clinical Researchers)

Since several years, ECCRT provides a yearly refresher GCP course for all our staff members. We are very satisfied... The content is tailored to our needs, and taught by a dynamic and very knowledgeable trainer. This course has become a valuable element in our education and training program.
-Gert Everaet (ICH-GCP (Good Clinical Practice) E6 (R2) Refresher)

The Programme was the perfect opportunity for me to gain practical experience in this field. The internships in 3 different organisations gave me a better view of the different job functions and possibilities.I'm ready to dive into the world of clinical research...
-Veronique Shiwa (Junior Clinical Researcher STAR Programme)

Questions & Answers

1.I am new to Clinical Research, which courses can I follow?

Training is the key to clinical research development. The more education and training you follow, the better suited you are for your job. ECCRT can offer you a wide variety of training sessions, to be up to date with the new trends, regulations and topics in clinical research.

- Introduction to Clinical Research
- Junior CRA Training
- Orienting your Career
- Foundational GCP
- Introduction to Regulatory Affairs

Contact us for more information.

2.Do I have to create an account for myself or the person I am booking the course for?

If you have to book a course for someone else, we ask that you create an account for yourself.
When booking the course please mention the name and email address of the participant.

3.Do we receive a certificate at the end of the course?

Everyone who participates in our courses receives a **certificate of attendance**. We also offer a **Certificate of Achievement** for a growing selection of our courses.

The Certificate of achievement can only be given to participants who completed their test with a score of at least 70%. Participants are allowed to consult their course notes and the extensive training material provided.

In the case of an online grading test, you will be offered to download your digital certificate directly from the ECCRT Virtual Campus once you've completed your test.

All certificates are globally recognised.

4.What is ECCRT's cancellation policy?

If you need to cancel your registration, the following cancellation terms are applicable:
•Cancellation by the ECCRT: due to unforeseen circumstances, it is possible that the training programme may change and the ECCRT reserves the right to alter the venue or to cancel the event.
•Cancellation by the registrant:
•More than 30 calendar days prior to the course: no cancellation fee will be charged.
•Between 14 – 30 calendar days prior to the course: 50% of the fee will be charged.
•Less than 14 days prior to the course or if no notification is received: the registrant will be liable to pay the full course fee.
•An administration fee of 50 EUR will be charged for each cancellation.
•Alternative delegates may replace a registrant; however all cancellations/replacements must be received in writing.

ECCRT reserves the right to reschedule or cancel classes up to **two weeks prior** to the scheduled date. Registered participants will be informed of any such changes.

Read more about our terms and conditions.

Thank You
